COUNTY FAIR ON
OCT. 11, 12 AND 13

LAWRENCE COUNTY SOCIETY FIXES DATES FOR OUR FAIR.

At a meeting of the Fair Association last Saturday it was decided that the Lawrence County Fair will be held at Louisa October 11, 12 and 13.

The banks, after a week of consideration, decided that they are not authorized under the law to take stock in the Lawrence County Banking Company. Dr. T. D. Burgess and Mr. Green have increased the company from eight to ten.

It was suggested that several of the farmers of this county wanted some good pure-bred heifers. The company agrees that its buyer will purchase for any farmer of this country's pure-bred bull or heifer of any breed. The only requirement is that the stock will be shown at the Lawrence County Fair on October 11, 12 and 13. Mr. Jim Woods will buy the stock. Mr. Woods, who is a successful dealer and raiser of live stock, is a very competent man for this place. His experience and knowledge of the defects of our cattle will aid him in selecting a type that is adapted to this country. To have this man of so great ability to walk into a pasture and select an animal for you without one cent of profit for himself is an opportunity that does not come every year.

Be at the court house at 2 p. m. Saturday, Sept. 2nd, and make your wants known.

Saturday, Sept. 2nd is the day to deposit your money to the credit of Mr. Jim Woods at the Louisa National Bank.

DIES IN LEXINGTON.

The following from the Lexington Herald refers to the grandmother of Mrs. Richard V. Garber, of this city, and who is remembered in Louisa, having visited Mrs. Garber a few years ago:

Mrs. Ollie Chase Blackford died Tuesday evening of last week at the residence of her daughter, Mrs. W. F. Clarke, in Lexington. Mrs. Blackford was born in Clarke co. For a great many years she has made her home in Lexington with her daughter and was held in high esteem by her friends. She had been in declining health for several years. She is survived by two daughters, Mrs. W. F. Clarke and Mrs. Mattie Bellows, of Charlottesville, Virginia. The funeral services were held Thursday afternoon, conducted by Rev. Mark Collins of the Christian church. Burial took place in the Lexington cemetery.

DEATH OF MRS. LIZZIE HAMMOND SCHMUCKER.

Mrs. W. M. Schmucker died at her home in Canton, Ohio, on Thursday of last week and was buried on Sunday at that place. Her health had not been good for some time, but the illness that caused her death was of only a few days' duration.

Mrs. Schmucker was formerly Miss Elizabeth Hammond, of Fort Gay, where her mother and three brothers still live. She was an excellent woman. A husband and three children are left—Mabel, age 21, Ethel 19, George 17. Mrs. Schmucker was 55 years old. She was a faithful member of the Lutheran church.

Frank Hammond, of the W. H. Adams store, went to Canton and attended the funeral.

MISS LUCY WOOD MARRIED. Miss Lucy Wood, of Glenwood, N. Y., was married to Mr. Charles French Gould, of Chicago, on August 12. They will be at home in Buffalo, N. Y., after September 1. The bride is a daughter of Dr. H. A. Wood and Gladys Northrop Wood, and is well known in Louisa, where she visited several times during her childhood. She is an attractive and worthy young woman and the best wishes of her Louisa friends go with her for a happy future. Mr. Gould is known as a successful young business man of excellent character. He was in Louisa about a year ago and met the relatives of his fiancee.

AUTOMOBILES FOR INEZ.

The little town of Inez is getting a number of automobiles, notwithstanding the fact that the county has bad roads. Geo. Hale, W. B. and Ben Schumard, Goo. Maynard and L. B. Chauday were in Cincinnati, Ohio, last week, when they bought four automobiles for use in the county. There is now an automobile running daily between Kermit, W. Va., and Inez, hauling passengers and the mail.

HIS TWELFTH BIRTHDAY.

On the evening of Aug. 31st Master Andrew McClure celebrated his twelfth birthday with a party to a number of his girl and boy friends at the home of his parents, Mr. and Mrs. J. H. McClure of Lock-av. All enjoyed the affair very greatly. The spacious and well shaded grounds are especially adapted to the entertainment of such a party.

THE NEW CHURCH.

The brick, tile, stone, and some other materials needed at for the new M. E. Church South have been against British money and that this is the work on the shop soon.

The foundation floor of the base of the new church is ready for the laying of the stones of the new church.

OBITUARY.

On Thursday, Aug. 17, near the hour of 3 p.m. the pilgrimage of aunt Louisa Hays, wife of Andy Hays, of Adams, Ky. came to a close as the black winged messenger flapped his wings across the tired, care worn form of this good woman and ended a life full of good deeds. Her soul arose in triumph over death, hell and the grave, and waded its way to the paradise of God. She had been in failing health for some years, but had only been confined to her bed a few months. She suffered greatly for many days before death relieved her, but bore her afflictions with Christian fortitude. She had passed at the age of 14 years and became a member of the United Baptist church.

The friends and parents have the heartfelt sympathy of their many friends.

In the case of the Commonwealth v. James C. Thompson in the circuit court was pushed with much difficulty with Judge May on the bench, after some acrimonious evidence was produced the fate of Thompson went into the hands of the jury. Young Thompson was charged with the willful murder of Miss Lula Johnson in this county last April 29, while he and a party of friends were moving in advance of the officers.

Isaac Burke and Creek Hall were each tried here on charge of moonshining on the headwaters of Rockhouse creek and were bound over by U. S. Commissioner Sam Collins. Williams of Jackson, the men having carried their moonshine still away just in advance of the officers.

Mills and factories of every kind in the United States will be closed by the railway strike, if it is put into effect. Wages are higher than ever known. Will the working men who desire to keep busy in these industries welcome such a calamity?

Wilson has asked Congress to grant authority to draft all railway employees and in case of strikes. This would move, pending the settlement of differences of every kind, to give the law such a law and it works satisfactorily to the country, and injure no one.

President Wilson has asked Congress to give the law such a law and it works satisfactorily to the country, and injure no one.

Canada's Liquor Interests, with their out satanic methods, are always using unscrupulous to slip up on the unwary and it some of their false theories in

We are almost constantly receiving free articles and are offered tree snake-like matter in which some point in their interest is cunningly half concealed. The latest scheme is a package of pamphlets, price ten cents each, and an offer to sell us any large quantity that we might desire at prices that would net us 200 per cent profit if we sold the books at 10 cents each. Having been in the newspaper business for some years, more or less, we began to look for the nigger in the wood-pile, or the snake in the grass, as you may prefer to call it. The booklet contains 48 pages, apparently filled only with information about presidential elections, with maps, tables, and full statistics. But searching diligently we find the fangs on the 47th page, a paragraph quoted from that notorious anti-prohibitionist, that most rabid friend of liquor, Henry Watterson. Then another by Wm. H. Taft and a third one by Oscar Underwood. Sandwiched between them are quotations from prohibitionists Wm. J. Bryan and Richmond P. Hobson, but these two are only a few sentences referring to the amount spent on liquor, and touching the revenues. They contain no argument and were deliberately chosen because of that fact, and only to fool the reader into believing that all five paragraphs were chosen by a disinterested compiler of the pamphlet.

The organized trainmen of the United States have ordered a strike on all railroads, to take effect Monday morning, Sept. 4th, unless the railway officials accede to their demands for ten hours pay for eight hours work, and thirteen hours pay for ten hours work. They refused all offers to arbitrate the questions in dispute, and the railway officials demand that arbitration be referred to, in order that their side may be given consideration.

Nothing worse could happen to our hundred millions of people than a suspension of railroad traffic. Nothing could infuriate them more than to have these arteries of trade stop. The damage to business in the midst of the great prosperity now being enjoyed is beyond present comprehension, and the public will have no patience with those responsible for such a crime. Woe unto the side upon which public sentiment fixes the blame! Aroused public sentiment in a storm before which nothing can stand, and neither railway employees nor railway managers should underestimate what will happen in the present instance if the strike is put into effect. It will be impossible to convince the public that a strike is necessary or excusable at this time. Wages are high and work plentiful. Therefore, the spirit of condemnation will be well remembered the time when he went to the water.

aroused in the public. We are not discussing which side is at fault. That can be determined only by a board of disinterested men.

Railroads are public service institutions. No man or set of men has any right to block and break down the business of the entire country by stopping transportation. The whole texture of our business fabric has been built up with the railroad system as the most important thread. It is of such importance that the government should enact laws to take hold and keep trains running during a crisis such as that now impending. The public has a right to the service regardless of the differences between labor and capital. Let them settle their disputes fairly and without resorting to violence and disruption of the country's business.

Such an experience as a strike at this time will probably result in government regulation of railroads. Wages will be fixed by the federal board, and freight and passenger rates will be made by the same authorities. The government is not noted for paying fancy salaries. The revision that follows may be a shock to those who are now receiving the highest wages ever known for the services rendered. These are facts fully realized by the far-seeing friends of labor. If all the parties to the trouble will take a calm survey of the situation, laying aside prejudice, passion and unfeeling greed, there will be no strike.

LOUISA EVIDENCE FOR LOUISA PEOPLE

WATCH THIS SALE.

You know the Old Vinson place in
the upper end of Catlettsburg? One
of the prettiest locations in the entire
Sandy Valley. It is high, in fact the
highest land in or around Catlettsburg,
except, of course, the hills. The view
is fine and there are a lot of pretty
homes being built in this section. It is
handy to the traffic bridge, the street
car line and the Kenova industries.

The Old Vinson place has been di-
vided into building lots and the own-
ers have decided to auction these lots
off on Wednesday afternoon, September
6th. There are perhaps twenty-
five lots and they are certainly dandies.
If you want to live in Catlettsburg and
be away from all dread of high water
this is exactly the place you are look-
ing for.

The sale will begin at four o'clock
Wednesday afternoon, September 6th,
and it will probably last but a short
time, for it will not take long to sell a
few lots in such a desirable location,
especially if they are sold under the
hammer.

The sale will be called by D. K. Gaff-
ney, a clever, young auctioneer from
Spartanburg, S. C. He is a live auc-
tioneer, and he will keep things mov-
ing. A brass band will be on hand to
enliven the occasion.

Look these lots over before the sale
and decide which one you want, then
when the sale comes and they are put
up at auction, buy one of them just as
cheap as you can, but don't miss the
opportunity to get one of the finest lots
available.

Another reason why we bave so many divorces is because a woman would rather pretend to love a man than to let some other woman love him.

STRIKE ISSUE IS BEFORE CONGRESS

Wilson Appeals to Solons to Avert Break.

BOTH SIDES STAND FIRM

President Recounts Attempt to Settle Controversy and Gives Position of Both Sides—Strike Is Positively Called For Labor Day.

Washington, Aug. 30.—In his efforts to prevent a nation-wide strike, President Wilson has appealed to congress for legislation to meet the crisis. With the railway presidents refusing to accede to the peace proposals of the president, and the railroad brotherhoods refusing to accept the demands of the railroad executives, congress now presents the only hope of preventing the railroad strike.

President Wilson went before a joint session of congress and told the situation before the members of the house and senate. The president told them of his efforts to bring the railroad men and men into some sort of an agreement, and, saying that he had been powerless to do so, appealed to congress to enact certain specific legislation to deal with the situation now and in the future.

Pointing out the distress and hardships which a nation-wide strike would bring upon the country the president asked congress to empower him to draft into the service of the United States the very managers and men who have been unable to adjust their differences so that the government may operate the railroads in case of military necessity.

He proposed that congress, first, enlarge the membership of the interstate commerce commission to equip it to deal with larger situations; second, that an eight-hour day be established, for all trainmen in interstate commerce; third, that a commission investigating the effect of the eight-hour day, but without recommendation, that the public may learn from a disinterested source of the merits of the question; fourth, that the interstate commerce commission consider the increased cost of the eight-hour day in making rates; and fifth, amend the mediation law to prevent strikes or lockouts while industrial disputes are being investigated. The sixth proposal was that the president be empowered to operate the railways in case of military necessity. How these recommendations are to be carried out President Wilson left entirely in the hands of congress.

Strike Certain.

Just before the president went to address congress it became known that the strike leaders had positively called the strike for Labor day unless a favorable settlement was reached before and that the negotiations between the men and men had been broken off.

The committee of railway presidents made a public statement of their position, declining to accept President Wilson's plan and giving their reasons.

The president presented all the details of the two weeks of negotiation to congress, recounting how he had laid before both sides a picture of the distress into which a strike would plunge the nation, and how he had assured the railway managers that the public would see that justice was done them. "They have thought it best," said he, referring to the railway managers, "that they should be forced to yield, if they must yield, not by counsel, but by suffering of the country."

"While my conferences with them were in progress," the president continued, "and when, to all outward appearance these conferences had come to a standstill, the representatives of the brotherhoods suddenly acted and set the strike for the fourth of September."

Thus the president summarized his efforts, and added:

"But I could only propose. I could not govern the will of others, who took an entirely different view of the circumstances of the case, who even refused to admit the circumstances to be what they have turned out to be."

He then followed with his recommendations for legislation. Representatives of the railway managers and of the brotherhoods sat in reserved seats in the galleries and heard the president make his address.

Memphis Hits Rocks In Ground Aids Roumanians In Attack on Swell at San Domingo.

GUNBOAT GASTINE ESCAPES GREECE MAY ENTER WAR

It is Reported That Many Lives Were Lost—Inrush of Water Extinguishes Fire Under the Boilers of the Cruiser.

San Domingo, Aug. 30.—Many lives are reported lost as a result of the United States armored cruiser Memphis being driven ashore on the rocks of the outer harbor by a sudden ground swell. All fires under the boilers of the Memphis were extinguished by the inrush of water.

The United States gunboat Gastine managed to escape by putting to sea.

The United States cruiser Memphis formerly was the armored cruiser Tennessee. Her name was changed May 26 last. Recently she has been doing duty in San Domingo waters in connection with the revolution.

The Memphis is of 14,600 tons and has a horse power of 23,000. Her complement is 990 men. She is the flagship of the cruiser force of the United States Atlantic fleet.

Captain E. L. Beach commands the Memphis. Other officers on board include Lieutenant-Commander Y. S. Williams, Lieutenant T. Withers Jr., Lieutenants C. A. Jones and Junior Lieutenants H. G. Shonard, W. J. Carter, F. L. Shea, J. L. Kerley and J. J. Pierce; Ensign D. M. Steele, J. H. Rockwell, M. J. Walker, R. T. Darrow, D. D. Dupre and H. M. Meyers; Passed Assistant Surgeon J. D. Mears, Passed Assistant Surgeon G. E. Robertson, Dental Surgeon R. Barber, Passed Assistant Paymaster K. C. McIntosh. Acting Chaplain C. V. Ellis, and First Lieutenant of Marines R. L. Shepard.

The Memphis was launched in 1904 at the Cramp Shipbuilding company plant in Philadelphia. She had a speed of over twenty-two knots an hour. She is armed with four ten-inch, sixteen six-inch, twenty-four three-inch and four six-pounder guns and carried four torpedo tubes. She was 502 feet long on the water line, 75 feet beam and had a maximum draft of 26½ feet.

In 1908 the cruiser, then the Tennessee, had a boiler explosion on board off Port Bueno, Cal., in which seven men were killed. At the outbreak of the present European war the cruiser, still the Tennessee, acted as a relief ship for Americans stranded as a result of the war. She carried \$6,667,000 to Europe for this purpose and later acted as a ferry for Americans between Illeve, France and English ports, bringing thousands of them from the war zone.

Later the cruiser assailed for the Mediterranean where she also was used for relief work, again acting as a ferry for Syrians and Armenians from Turkish ports in Asia to Egypt. While engaged in this work at Smyrna the forts of that city fired on a launch from the cruiser, which was the cause of considerable diplomatic correspondence between the United States and Turkey.

ROADS PLAN TO MOVE FOOD

Expect to Replace Some Trainmen Who Go on Strike.

New York, Aug. 30.—Railroad traffic officials indicated here that every effort would be made in event of a nation-wide railroad strike to operate sufficient trains to transport milk and perishable foodstuffs, through system of promotion of men from other departments to fill the places of the railroad employees who remained at work.

Skilled machinists and engineers in other industries would be employed to operate these trains, it was asserted, together with the most efficient of the railroad employees who remained at work.

Appeals were mailed to the presidents of all railroads and to the representatives of the employees by the New York milk committee, urging that operation of milk train be continued if a strike takes place.

Clerk Uses Penknife to Slash Throat.

Shelbyville, Ind., Aug. 30.—When his wife was getting milk for breakfast, Charles Nichols, forty-one, cut his throat with a penknife, and neighbors called later by his wife found him dying in the basement of his home. He was a drug clerk and suffered a nervous breakdown.

More Join Freight Handlers Strike.

Chicago, Aug. 30.—Eight hundred more men joined the strike of freight handlers called when the railroads refused to recognize their union, bringing the total now out up to 1,100. The men who walked out were employed by the Baltimore & Ohio and the Grand Trunk railroads.

Bulgaria May Hold Back.

Paris, Aug. 30.—The Bucharest correspondent of the Petit Journal wires that he is informed that Bulgaria has decided not to declare war on Romania, even though that country permits the passage through it of Russian troops.

106 Killed in Riots.

London, Aug. 30.—Sweden and Russia have agreed to link their railway system by bridging the River Tormes, on the boundary between the two countries, according to a Reuters Stockholm dispatch. Construction of the bridge will begin immediately.

106 Killed in Riots.

London, Aug. 30.—A Central News dispatch says it is reported in Holland that 106 persons were killed in Dresden riots caused the sentence of Karl Lohknecht, the socialist. The crowds shouted "Down with war!"
